

Mike Prissick, Mortgage Broker

To whom it may concern

12th January 2007

Dear Sir/Madam,

As a client of Computer Solutions 4 Business (CS4B), I write to provide confirmation of the value of their service and expertise to our company.

The key areas are:

1. Their response time under the Service Level Agreement we have with them is exemplary. They have a professional attitude to ensure that they comply with, and exceed, the terms of the agreement.
2. Their ability to identify what we want to achieve with our I.T. has been such that we now have the hardware, software, and network that fits our requirements perfectly. In addition, they ensure that their understanding of our business is up-to-date so they're able to recommend changes quickly. In installing the equipment and programs we now have, Lance and Michael frequently had to liaise with the lenders and other financial services suppliers for us to link back into their systems - not an easy task as many of the personnel working for these companies had limited understanding of their own systems.
3. We use their remote back-up and fix facility so that we know our data is safe in the event of a crisis but our daily activities are unaffected by the process involved.

Overall, we're delighted with CS4B and recommend them unreservedly.

Yours faithfully,

M. E. Prissick
