To Whom It May Concern:

CS4B

I confirm that I have dealt with CS4B since June 2006, initially to move our existing systems to a new office location. This was all handled very professionally and reliably, to such an extent that when we moved into our new offices we were able to continue to work seamlessly with no interruptions. Subsequently CS4B have totally installed a new networked system for us, both in Gloucestershire and Cornwall, which they handled proficiently and competently to ensure that this was completed successfully and on time.

During this time they have provided my business with excellent support through a Service Level Agreement. They are easy to get on with and deal with all issues in a most professional manner, and I have no hesitation in recommending them.

Yours faithfully
